JAZZY DYSTOPIA: COOKIE CRIMES VIDEO

PERFORMER | PRODUCER | PROMOTER | COMPOSER

Professional live performer (bass and vocals), and aspiring studio music producer. Played all over north-east England with a range of post-punk, blues and rock bands. Involved in the productions of High School History and Day Drinking singles. Sole engineer on The Flow State debut EP. Co-promoter and organiser of the sell-out Roulette Festival (Sunderland, 2024).

Marcia is a bass player at heart: with her Stingray at her side nothing is impossible! Inspired by Muse, Radiohead, Stevie Wonder, Vulfpeck and Green Day, she can create complementary bass for almost any genre she sets her mind to, with an emphasis on unique, melodic bass lines. Her love of Muse has led to a passion for playing keys and singing whenever she can - simple yet effective is always key when it comes to nailing down her parts. Tracks like the aptly named 'Piano Dreams', 'Project Foonk' and 'Bee Da Doo Da' demonstrate this perfectly: blissful keys, groovy bass and unruly vocals often in a package of dramatic gothic rock. Soundcloud and Instagram are the best places to check out Marcia's moosic! More information is available on the [marcimoosic](#) website.
